

The 5th European sCO₂ Conference

for Energy Systems

sCO₂
europe

Prague
Czech Republic

The 5th European sCO₂ Conference in 2023 focusses on supercritical carbon dioxide for energy systems. Scientists and researchers from academia and industry as well as end users are kindly invited to share and discuss the latest outcomes from their sCO₂ related projects. Moreover, this conference is the perfect place to establish new initiatives and cooperations amongst those who are active in this fascinating field of research.

Conference Topics

- Heat Exchanger
- Turbomachines and Cycles
- sCO₂ Applications and Energy Systems
- sCO₂ Experiments and Loops
- Fluid and Material Aspects

Extended Call For Papers

Abstract submission: 26.07.2022	11.07.2022
Abstract acceptance:	05.08.2022
Draft paper submission:	25.10.2022
Reviewer comments:	22.11.2022
Inform authors on review result:	05.12.2022
Final paper submission:	11.01.2023
Final paper acceptance:	25.01.2023
Conference in Prague:	14.-16.03.2023
